THE ERA COLLECTION

THE ERA COLLECTION

As you may know, our jewelry is designed in the Netherlands and handcrafted in Italy. To ensure our pieces are of the finest quality, we work with small family-owned companies who make use of recycled 925 sterling silver and 14k gold to produce our bridal necklaces, bracelets and earrings.

The Era collection is a rather special one, as it is the result of ideas that were cooked up during a global pandemic. Due to travel restrictions, we weren't able to visit Italy to collaborate with our ateliers. Not having been being able to work side by side to execute our initial designs was an absolute down side. But, on the other hand, we did have more time than usual to think about the cohesion, consistency and use of materials of this jewelry collection.

Due to the new and improved outlook on opportunities and possibilities this year has given, and the amount of creativity that has risen to the surface because of it, 2021 signifies a new era for us as a brand. New website, new collaborations, new collection: the Era collection.
